

PROJECT

Gladstone

San Juan Mountains, Colorado, 2008

CLIENT

BLM, USFS, EPA

SITE DESCRIPTION

2-week demonstration of RCTS' capabilities at multiple sites at 10,500' elevation.

SERVICES PROVIDED

- Evaluation of RCTS with waters of varying chemistry and varying flow rates
- Sludge characterization
- Provided clients with on site testing and evaluation of system

RCTS™ systems are **proven in the field**, eliminating speculation.
